

# Customer Service Plans *We have the right plan for your practice!*

Henry Schein Practice Solutions strongly believes that its products are used to their greatest potential only when: (a) the doctor's software system is kept up-to-date with the latest enhanced version of the DENTRIX core software or add-on modules; and (b) the doctor's office has the continuing ability to seek assistance from DENTRIX Technical Support Representatives for any DENTRIX software-related questions that may arise. The computer industry will continue to change and evolve and Henry Schein Practice Solutions will continue to develop quality software based on the dental professional's requirements and needs.

### 2 DENTRIX Upgrades for One Year

You will automatically receive all upgrades to the DENTRIX software that are released during your contract period. While Henry Schein Practice Solutions fully intends to provide one major software upgrade and periodic enhancements each year, the timing of these releases cannot be guaranteed due to the circumstances inherent to software development and the complexity of the various enhancements. This plan does not include upgrades for add-on modules.
