

DENTRIX MOBILE

Dentrix Mobile keeps you in touch with your practice. Anytime, Anywhere.

With Dentrix Mobile, you can:

- Access patient data anytime, even after hours
- Verify patient prescriptions while out of the office
- Quickly see appointments for you, other providers and patients
- Deliver real-time updates for on-call teams
- Get even more value from your Dentrix Customer Service Plan

All with no additional fees required!* Dentrix Mobile is available on popular devices like iPhone, iPad, Palm Pre, Android and select BlackBerry models.

Now when you leave the office, you can be just seconds away from seeing the information that drives your practice. Dentrix Mobile gives you fast, secure access to patient details, appointments, medical alerts and prescriptions—anytime, anywhere. With support for BlackBerry®, iPhone™, iPad™, Palm Pre™ or Android™ smartphones, Dentrix Mobile keeps you in touch with your practice while you're away.

Dentrix Mobile Provides Quick, Secure Access to Practice Information

Dentrix Mobile gives you secure access to the important patient and schedule information you use to manage your practice—all from your smartphone or mobile device. With Dentrix Mobile, you can quickly see patient details, such as medical alerts and prescriptions, as well as appointments for you and other providers in your practice. Designed for Dentrix G4, the leading dental practice management system, Dentrix Mobile runs on the most popular smartphones and mobile devices, including BlackBerry, iPhone, iPad, Palm Pre and Android.

Best of all, Dentrix Mobile is included with your Dentrix Customer Service Plan at no additional cost.

Dentrix Mobile is Certified Secure

Dentrix Mobile protects your data with certified security. Since no patient data is stored on the mobile device itself, no one can access your information if you ever lose your device. In fact, Dentrix Mobile accesses your Dentrix data in the same secure way you use your web browser to do online banking or purchasing. Private information is stored on a secure industry-certified server. To access it, simply click on the Dentrix Mobile icon from your handheld device and enter your username and password. It's that easy. Any data you view is erased the moment you close your mobile web browser—just as it does when you do online banking.

View Appointment Schedules for the Entire Practice

The next time a patient calls you at home for emergency treatment, use Dentrix Mobile to immediately see the next available opening in your schedule. With Dentrix Mobile, you see appointment schedules for you and other providers in real time. You can also search for appointments by patient name. Staying informed of changes to your daily appointments no longer requires calling in to your office when you're away, giving you greater flexibility over how you manage your time.

See Patient Details at a Glance

When you get a call from someone requesting a new prescription, you can know within seconds if the caller is a patient or not. With Dentrix Mobile, you can search the patient's name and their essential information, including:

- **Contact Information**—view the patient's home, mobile, work and other phone numbers and email address.
- **Prescriptions**—view a list of patient's prescriptions, dates and details.
- **Medical Alerts**—view a list of allergies and other medically important information.
- **Past Appointments**—view the date and time of past appointments. Click on the appointment date to view details of the past appointment.
- **Future Appointments**—see updated appointments as soon as updates are made at your office.

Easy to Learn, Easy to Use

Dentrix Mobile has been specially designed with a highly intuitive user interface that lets you find the patient and appointment information you're looking for quickly and easily.
